Quick start GTS UC-One Communicator for Windows

GTS UC-One (Windows) - Application Installation

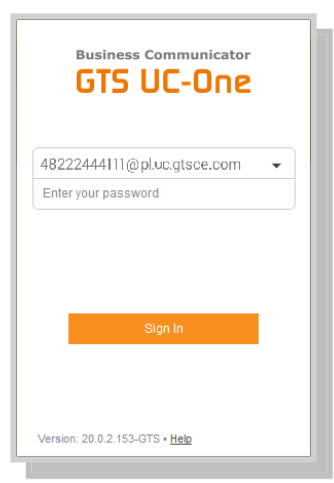

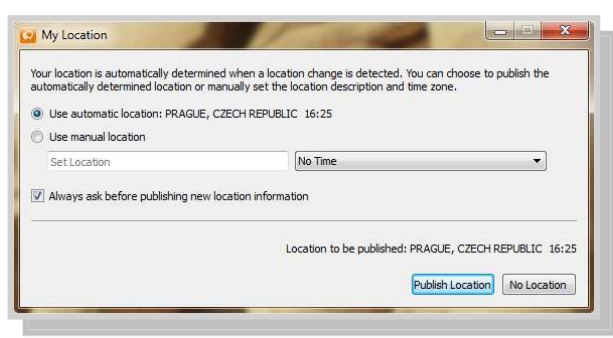

1. Download client software for Windows.
2. Install the application on your computer.
3. Start the application.

GTS UC-One user settings

1. Enter server address: „https://centrex.gts.cz/bc/pc“.
2. Enter user phone number followed with „@cz.in.gtsce.com“.
(e.g. 48222444111@pl.uc.gtsce.com)
3. Enter your password received from T-mobile.
4. Log in.
- 5.

During the first login please confirm the access to MS Outlook. This allows you to have your contacts available and if you have a meeting scheduled, your presence status changes to “at a meeting”. Please also, at your discretion, give permission to send information about your location that your colleagues will see.

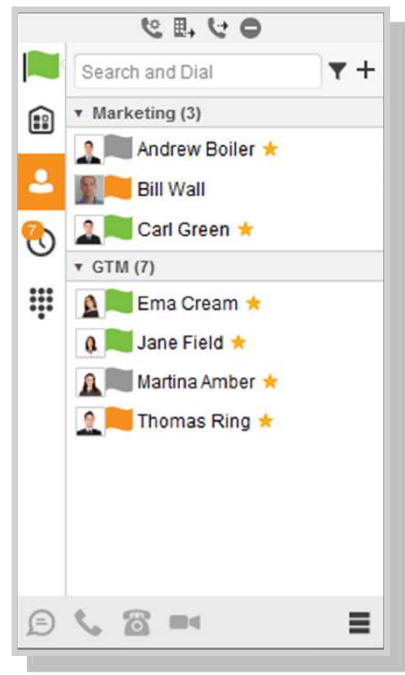

Add Internal Contacts

1. Enter part of the name into the search field.
2. Click on the icon Add Contacts.

3. Calling using GTS UC-One

1. Click on keyboard icon next to the search field.
2. Dial the number the same way as using desk phone (short number or external number – with or without 0).

Making a Call from Phone, Calling from Computer Video Call or Chat

1. Select required contact.
2. Click below on desired function.
